Benicky and Sons Barber Shop
Leisure case study

Ingrained with art deco influences and inspired authenticity, Benicky and Sons Barbershop delivers an immersive experience for premium quality and expertly crafted cuts that stays true to the nostalgic 1920s barbershop experience.

Located in Mosman on the lower north shore of Sydney, the barbershop blends the glamorous styling of the 1920s including vintage Theo A. Koch chairs with a mixture of refined finishes that highlights the era's sophisticated look.

Paired with the rich dark finish of Opus Atra, its smokey undertones and traditional herringbone lay helps bring the look together.

"I was first introduced to Karndean luxury vinyl flooring by my architect, Daniel Malik from Alpha Plus Architecture," commented owner and founding barber, Luke Benicky.

"The natural finish of Atra caught my eye and it fits well with our 1920s style shop. We've received countless comments about our floor and customers can't believe it isn't real wood floorboards."

As well as offering the ideal look to complement the overall interior, the choice of flooring has played a part in the day-to-day practicalities for its staff both in maintenance and comfort.

"Seeing that I'm on my feet all day, the Karndean vinyl flooring is softer underfoot which makes it easier on my back and feet."

"When it comes to daily maintenance, I find that Karndean is very easy to clean, is resistant to stains and does not become very slippery with water – which is perfect for this type of environment."

Formats

We offer three types of product formats: Loose lay, rigid core and gluedown.

Loose lay

Karndean LooseLay features our K-Wave® friction grip backing which helps hold the product to the subfloor without adhesive, making it quick and easy to install. Ideal for underfloor access panels and temporary roomsets, each plank can be lifted individually where required.

LooseLay Originals

1050 x 250mm plank, 500 x 610mm tile

LooseLay Longboard

1500 x 250mm plank

K-Guard+® Surface Protection
Clear PVC Embossed Wear Layer
High Definition Photographic Layer
Stability Layer
K-Wave® Friction Grip Backing

Rigid core

Our rigid core ranges are ideal for installations where acoustics, uneven subfloors or preservation of existing hard floors need to be considered. A click-locking mechanism allows for quick installation and the preattached backing eliminates the need for a separate underlayment.

Korlok

1420 x 225mm plank, 457 x 600mm tile

Van Gogh

1220 x 180mm plank

Knight Tile

1220 x 180mm plank, 305 x 457mm tile

Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection: www.karndean.com/advice. We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice. We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information.
