Christie Spaces - Coworking  
Office case study

Christie Centre is a multi-level shared office space environment on Walker Street in the heart of North Sydney. The client moved from a fully carpeted space to vinyl plank throughout for a fresh look and ease of maintenance. Choosing Karndean Designflooring for your client's board room, reception area or open-plan office helps create a stylish and inspiring working environment.

The classic mid-tone palette and rich character of Country Oak provide a beautiful base on which to layer your personal style. It's right on-trend for current style directions that look to reference the past to bring a feeling of time-honoured nostalgia to interiors. While it honours the past, this character-rich rustic-luxe style is firmly focused on the future. Country Oak captures all the authentic characteristics and beauty of oak in our cleverly engineered luxury vinyl planks.

Our Karndean LooseLay Originals range offers a stylish and practical flooring alternative to natural timber and stone for all areas of the home. Offering quick and easy installation, acoustic qualities, durability that is up to the everyday challenges of busy family homes backed by a lifetime warranty and the practicality of individually replaceable tiles. Our LooseLay Originals range has all the benefits you have come to expect from Karndean luxury vinyl flooring. This exciting range now features 18 wood-look planks and 12 stone-look tiles in eight thoughtfully curated collections, developed to complement a wide range of interior styles.

# Formats

We offer three types of product formats: Loose lay, rigid core and gluedown.

## Loose lay

Karndean LooseLay features our K-Wave® friction grip backing which helps hold the product to the subfloor without adhesive, making it quick and easy to install. Ideal for underfloor access panels and temporary roomsets, each plank can be lifted individually where required.

### LooseLay Originals

1050 x 250mm plank, 500 x 610mm tile

### LooseLay Longboard

1500 x 250mm plank

## Rigid core

Our rigid core ranges are ideal for installations where acoustics, uneven subfloors or preservation of existing hard floors need to be considered. A click-locking mechanism allows for quick installation and the preattached backing eliminates the need for a separate underlayment.

### Korlok

1420 x 225mm plank, 457 x 600mm tile

### Van Gogh

1220 x 180mm plank

### Knight Tile

1220 x 180mm plank, 305 x 457mm tile

## Gluedown

Our gluedown ranges offer our widest choice of colours and formats. Features such as textured emboss or our premium handscraped finish, wide bevels or flat edges make each range unique to Karndean Designflooring.

### Art Select

228 x 76mm, 915 x 152mm, 1219 x 178mm plank

### Van Gogh

1219 x 178mm plank

### Opus

915 x 152mm, 1219 x 228mm plank, 457 x 610mm tile

### Knight Tile

1219 x 178mm plank, 305 x 305mm, 305 x 457mm tile

# Why choose a loose lay floor?

Loose lay is a format of luxury vinyl flooring featuring our K-Wave® friction grip backing that holds the product in place. No clicking. No locking.

Boasting the realistic designs and grain details customers expect from Karndean, loose lay is available in large-scale wood look planks and stone look tiles and can help you create a look that works in almost any space. What's more, it's easy to install and can be laid over most existing hard floors with the use of tacky or hard-set adhesive. Oh, and it's 100% recyclable!

\*Tacky or hard set adhesive may be required for most applications, please refer to installation instructions.

# The benefits of Karndean Loose lay

## Individually replaceable

Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

## Quick and easy to install

All you need is a sound, smooth, dry and dust free subfloor. Our loose lay ranges can be fitted over most existing hard floors\*.

## Acoustic qualities

Our loose lay ranges are perfect for projects where you want to reduce noise levels in the room below, such as playrooms, bedrooms and garage/ loft conversions without the need for underlay.

## K-Wave friction grip backing

Our K-Wave® friction grip backing creates a strong bond to the subfloor using a combination of weight and friction.

# Visit us online at [karndean.com](http://karndean.com) where you can...

## Find website support

The website offers a wealth of inspiration, case studies and design ideas, detailed technical information and a look inside our head office and warehouse. When you are designing floors this is your point of reference for information, samples and practical support.

Website tools include:

Product Selector	Installation guidelines
Digital Specification Library	Order samples
Technical data	Brochures
Sector application	BIM files

## Order samples

If you need some extra help selecting the best colour for your project, why not order some cutting samples? These are small swatch samples designed to help you pick which product is right for you.

#### Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection: [www.karndean.com/advice](http://www.karndean.com/advice). We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice. We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information.
